TUTORIAL

Cara Install Quickstar

Tutorial Step By Step

Apa itu Quickstart?

Paket quickstart adalah paket website lengkap yang mencakup: *template, ekstensi, database, gambar* ... dan setelah Anda menginstal quickstart berhasil, Anda akan memiliki website lengkap yang persis sama Demo kami

1. Upload ke server

Melalui FileZilla atau software FTP lain, meng-upload semua file dari folder Quick Start Package untuk direktori website Anda.

2. Jalankan Joomla instalasi Wizard

Buka browser web dan akses ke folder Paket QuickStart diupload, di domain utama atau di subdomain.

Misal didomain utama: [http:// park5.co.id](http://park5.co.id)

3. Configuration

Pada halaman konfigurasi, Anda harus **memilih bahasa**, **masukkan nama**, **deskripsi situs** dan **setup rincian admin** Anda. klik Next.

The screenshot shows the Joomla! Configuration page. At the top, there's a Joomla! logo and a notice: "Joomla!® is free software released under the GNU General Public License." Below this, there are three tabs: "1 Configuration", "2 Database", and "3 Overview". The "Configuration" tab is active. Under the "Main Configuration" section, there are several form fields: "Site Name" (with value "www.park5.co.id"), "Administrator Email" (with value "admin@park5.co.id"), "Description" (empty), "Administrator Username" (with value "admin"), "Administrator Password" (masked with dots), and "Confirm Administrator Password" (masked with dots). There are also "Yes" and "No" buttons for "Site Offline". A "Next" button is at the bottom right.

4. Database

Konfigurasi Joomla dengan database Anda. Set Database Type untuk **MySQLi** dan mengatur Hostname ke **localhost**. Masukkan Database **Username**, **Password** dan **Nama Database**, klik Next.

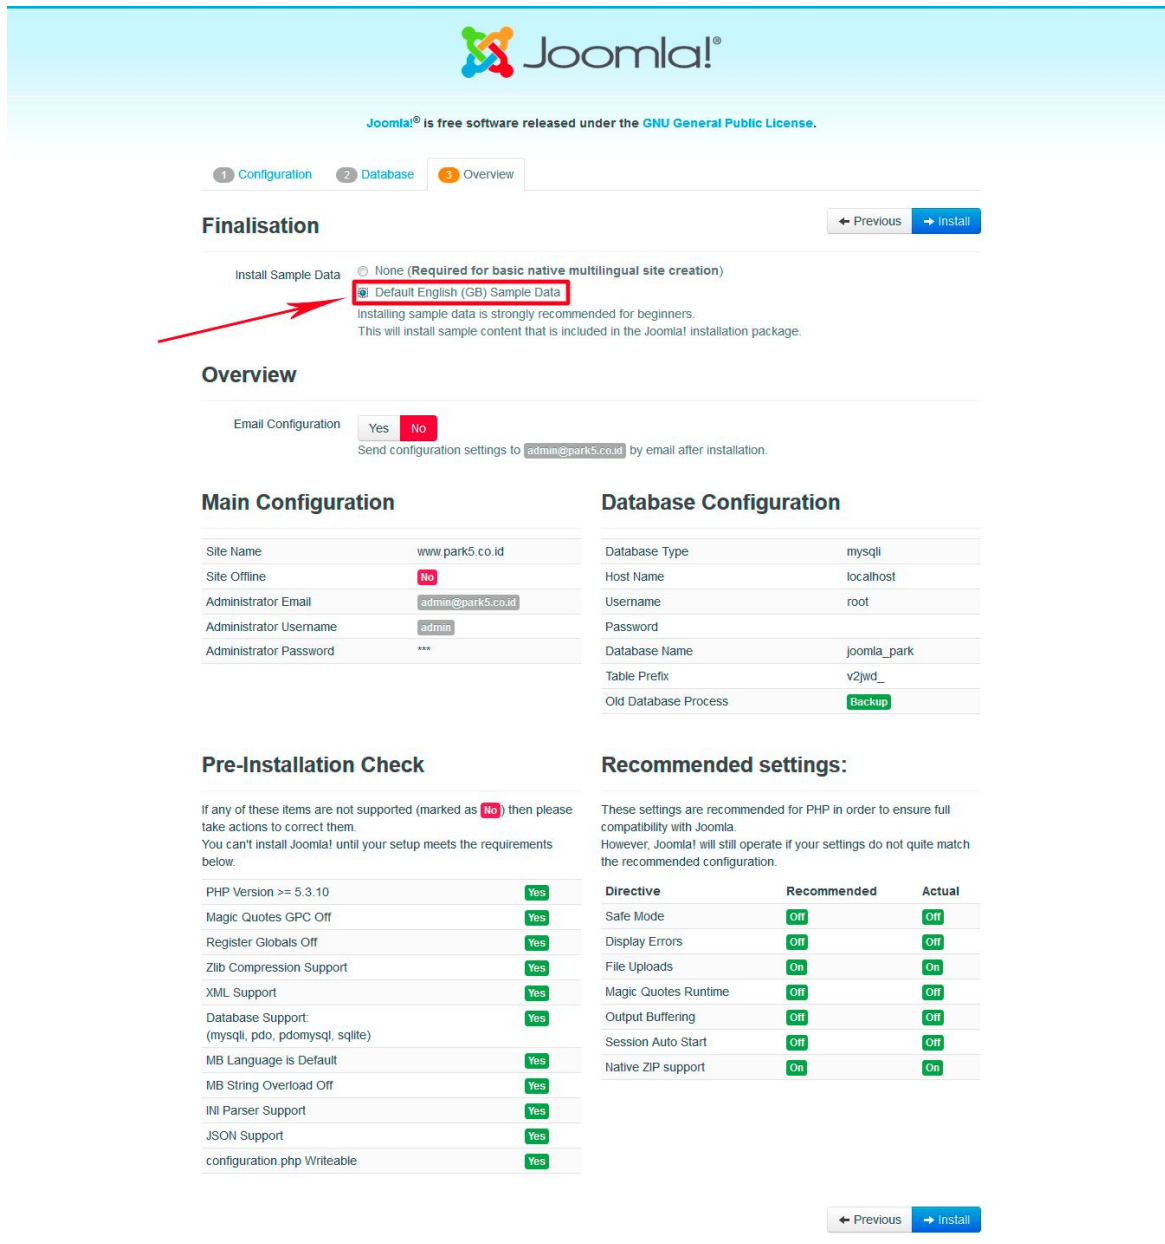

The screenshot shows the Joomla! Database Configuration page. At the top, there's a Joomla! logo and a notice: "Joomla!® is free software released under the GNU General Public License." Below this, there are three tabs: "1 Configuration", "2 Database", and "3 Overview". The "Database" tab is active. Under the "Database Configuration" section, there are several form fields: "Database Type" (set to "MySQLi"), "Host Name" (with value "localhost"), "Username" (with value "nama_username"), "Password" (masked with dots), "Database Name" (with value "nama_database"), and "Table Prefix" (with value "v2jwd_"). There are also "Backup" and "Remove" buttons for "Old Database Process". A "Next" button is at the bottom right.

5. Overview [Penting]

Untuk instalasi template yang berhasil Anda perlu menginstal data sampel, pilih **Default English (GB) Sample Data**,

klik Next.

Joomla!® is free software released under the GNU General Public License.

1 Configuration 2 Database 3 Overview

Finalisation

← Previous → Install

Install Sample Data ☐ None (Required for basic native multilingual site creation) ☒ **Default English (GB) Sample Data**

Installing sample data is strongly recommended for beginners.
This will install sample content that is included in the Joomla! installation package.
